

To whom it may concern,

I have been listening to a radio station called K-Love on FM 104.3 in Cincinnati for at least 5-6 years now and I understand that I may not be able to hear this station anymore if the new changes to FM broadcasting is changed. I understand that a LPFM broadcaster would be able to take the place of this station if the new changes concerning LPFM broadcasting are enacted. I am against these changes. K-Love has been an inspiration to me and my family. I can always rely on them to give me a radio station that I do not have to monitor. It is family friendly wholesome entertainment. These are the kind of stations that the FCC should want on the air. You do not get complaints about these stations. It would be ashamed to see it disappear. The local community would be hurt by having these changes enacted. We would not be able to listen to the kind of programming that would build up a person, help them with problems and to change their lives for the better. I urge you to not enact the changes that you are considering. I would be devastated if I cannot listen to K-LOVE. Thanks for your consideration on this matter.
